IT Systems and Network Engineer
Toronto, Ontario, Canada | sthiruvancodes@gmail.com | +1 647-858-3895 | [LinkedIn](#)

Summary

IT support engineer with experience keeping systems and connectivity available across a production site and remote locations for 450+ users. Hands-on with Windows, macOS and mobile device deployment, network hardware troubleshooting, and Microsoft identity administration. Bachelor of Science in Computer Science. Builds PowerShell and AI-assisted automation to streamline provisioning, testing, and reporting workflows. Current full Victorian driver license.

Professional Experience

IT Systems & Network Administrator (Contract), Hazeldenes Chicken, Bendigo, Victoria

Mar 2026 to Jul 2026

- Delivered L1-L3 support across multiple sites for 450+ users, resolving 100+ hardware, software, network, and access tickets per week in Freshdesk while meeting SLA targets.
- Administered Microsoft Entra ID and Active Directory, managing user accounts, Group Policy, and permissions.
- Managed device enrollment and compliance in Microsoft Intune across Windows, iOS/iPadOS, and macOS, including provisioning and software deployment.
- Used Remote Desktop and TeamViewer to connect to users' computers and fix issues when I was not at the desk.
- Supported thermal network printers and configured Zebra scanners on the floor.
- Managed onboarding, offboarding, and MFA across Microsoft 365 and Entra ID.
- Provisioned Power BI workspace access and permissions for the analytics team.
- Debugged Cisco network hardware and Integriti access control, keeping connectivity up across the site and remote farms.
- Wrote PowerShell to automate bulk user provisioning and to speed up documentation and ticket reporting.

Data Automation Specialist (Fixed-Term Contract), Community Collective, Abbotsford, Victoria

Sept 2025 to Nov 2025

- Engineered automated data validation pipelines that cut manual QA effort by 80% while improving accuracy through rule-based validation.
- Deployed applications on AWS Elastic Beanstalk, building scalable testing environments with real-time dashboards for monitoring test results and system performance.

IT Support (Internship), MACA, Perth, Western Australia

May 2024 to Aug 2024

- Troubleshoot hardware, software, and network issues for end users in a fast-paced environment, improving first-contact resolution.
- Managed service desk tickets end-to-end, delivering timely resolutions and maintaining a user-friendly support experience.
- Supported VPN access and remote troubleshooting, contributing to system uptime and user productivity.

Quality Assurance Engineer (Fixed-Term Contract), Global Affairs Canada, Gatineau, Quebec

Sept 2022 to Dec 2022

- Designed and executed functional, regression, and integration test cases for government systems, ensuring compliance with security and data integrity standards.
- Developed test cases using VB.NET and supported integration testing, maintaining detailed configuration and device management records.
- Supported the IT team on the side with Microsoft Intune device enrollment and Level 1 ticket resolution for Government of Canada staff, alongside primary QA responsibilities.
