EDUCATION

- **Trent University** Peterborough, ON
Bachelor of Science in Computer Science; Dean's List 2022 2020 – 2025

TECHNICAL SKILLS

- **Languages:** C, Python, JavaScript, TypeScript, PowerShell, VB.NET
Frameworks: FastAPI, Node.js, Express, Next.js, Electron
Tools: Git, pytest, Chrome Extensions, Twilio

EXPERIENCE

- **Hazelden's Chicken** Bendigo, VIC
IT Systems & Network Administrator (Contract) Mar 2026 – Jul 2026
 - **Automated:** Freshdesk ticket reporting and documentation with Python and JavaScript so the queue was not all hand-updated.
 - **Implemented:** PowerShell scripts that provisioned users and groups in bulk from structured input.
 - **Administered:** Entra ID, Active Directory, MFA, and joiner/leaver access, plus Intune enrolment on Windows, iOS/iPadOS, and macOS, for about 450 people across sites.
- **Community Collective** Abbotsford, VIC
Data Automation Specialist (Fixed-Term Contract) Sep 2025 – Nov 2025
 - **Developed:** Campaign Validator, an Electron and JavaScript desktop app that parsed donation CSVs and applied campaign rules from JSON so staff were not checking spreadsheets by hand.
 - **Encoded:** Age, pledge, credit-card versus direct-debit, donor-to-bank name, and Australian address rules for ChildFund, Starlight, and RFDS campaigns.
 - **Generated:** A non-billable results file with reasons the team could act on.
- **Global Affairs Canada** Gatineau, QC
Quality Assurance Engineer (Fixed-Term Contract) Sep 2022 – Dec 2022
 - **Designed:** Functional, regression, and integration test cases for government systems, including work in VB.NET.
 - **Documented:** Configuration and device records, and supported Intune enrolment and Level 1 tickets on the side of the QA work.

PROJECTS

- **Dispatch:** Engineered a phone-triggered browser agent: FastAPI and Python drive Chromium through Claude, Next.js shows a live JPEG stream over WebSocket, and Twilio can start a task from a call.
github.com/sthiruvancodes-oss/dispatch-browser-agent
- **Field Invoice:** Built a Node and Express invoicing PWA in a 90-minute Cursor x U of T hackathon (Jun 2026). One of 5 teams out of 20 selected to demo. Parses a booking into an invoice, WhatsApp/SMS link, and watermarked gallery.
github.com/sthiruvancodes-oss/field-invoice
- **Instacart Substitution Spotlight:** Chrome MV3 extension that flags auto-substitute cart items and drives Instacart's own dialog so the change actually saves. Local notes only, one storage permission, no network calls.
github.com/sthiruvancodes-oss/instacart-sub
- **nethealth:** Developed a Python CLI for ICMP, TCP, DNS, HTTP, and TLS checks with TOML/JSON suites, text/JSON/HTML reports, exit codes for scripts, and 63 mocked pytest tests.
